Dear Sir,

**Re: Community Swimming Pool, Debenham**

I am writing to express our support and continued commitment to the swimming pool campaign in Debenham. As a church that is active in the community of Debenham and as a group of people keen to see this community thrive we fully support the need and campaign for the swimming pool.

I really believe it will make a difference to the community in that it will provide a leisure activity for families to use, it will act as a meeting place for residents and will be another resource for groups such as ourselves to use.

We offer numerous activities for children, young people and families and so as an organisation I can foresee we would make several bookings in a calendar year and would really value this resource to enhance our current programs.

If we can be of any further support or assistance, please do get in touch,

Yours faithfully,

Rebekah Green
